**A NOTE FROM
THE DIRECTOR**

What price must be paid for success? Rose Havoc wants the best for her "babies," and she will not allow anything to stand between her and her dreams. No sacrifice is too great if it means getting closer to her goals and Rose knew how to let the thunder roll. Her children grew up to be successful in their careers. June Havoc was the toast of Broadway and Louise became Gypsy Rose Lee. They both seem to have found the pot of gold at the end of the rainbow. Everything seemed to turn out well. But then again, sometimes the thunderstorm deserves our attention and not the rainbow which follows. "...between the dream and its realization is life."
